

Robert Hayes

Senior DevOps Engineer · Kubernetes · AWS · Platform Engineering

Lorettostraße 29, 40219 Düsseldorf · +49 221 4710 185 · robert.hayes@example.com

SUMMARY

DevOps engineer with ten years of experience running production infrastructure. I build internal platforms that let development teams ship safely: Kubernetes, infrastructure as code, CI/CD and observability.

EXPERIENCE

Senior DevOps Engineer

02/2022 - present

Rheinufer Cloud GmbH, Düsseldorf

- Built an internal developer platform on EKS with Backstage, Argo CD and Crossplane
- Terraform modules for 40 AWS accounts; policy as code with OPA
- Cut cloud costs by 28 % through rightsizing and spot instances

Site Reliability Engineer

06/2019 - 01/2022

Königsallee Commerce AG, Düsseldorf

- On-call and incident management for an online shop with 3 M monthly visitors
- Introduced SLOs, error budgets and blameless post-mortems
- Prometheus, Grafana and PagerDuty setup; mean time to recovery down from 70 to 20 minutes

Systems Engineer

09/2016 - 05/2019

Westfalen Hosting GmbH, Dortmund

- Operated Linux servers and VMware clusters for hosting customers
- Automated provisioning with Ansible and Packer

EDUCATION & CERTIFICATIONS

BEng Computer Systems Engineering, University of Birmingham, 2012 - 2016

Certified Kubernetes Administrator (2021) · AWS Certified DevOps Engineer - Professional (2023)

SKILLS

Kubernetes, EKS, Helm, Argo CD, Crossplane, Backstage, Terraform, Ansible, Packer, AWS, GitHub Actions, Prometheus, Grafana, PagerDuty, OPA, Linux, Go, Python, Bash

LANGUAGES

English (native) · German (B2)
