Computer science graduate (October 2026) looking for a junior Android or cross-platform position in Munich. Two years of hands-on app work alongside my studies; I ship small features end to end and enjoy UI polish.

EXPERIENCE

Working Student Mobile Development Feb 2025 – Sep 2026
Alpenblick Apps GmbH, Munich (16 h/week)

- Developed features for a hiking-tour app (~80k downloads) in Kotlin with Jetpack Compose: offline map downloads, tour favourites, dark mode
- Migrated the settings screens from XML layouts to Compose; wrote unit tests with JUnit and MockK
- Built a small internal companion tool in Flutter/Dart for the content team to review tour descriptions
- Crash analysis with Firebase Crashlytics, releases through Google Play Console

Intern Android Development Mar 2024 – Aug 2024
Isar Mobility GmbH, Munich

- Implemented the ticket history screen of a public-transport app (Kotlin, MVVM, Room, Retrofit)
- Connected the app to a REST backend and handled error states and offline caching
- Took part in sprint planning and code reviews in a team of five

EDUCATION

B.Sc. Computer Science (Informatik) Oct 2022 – Oct 2026
Hochschule München (University of Applied Sciences), final grade 2.1

- Bachelor thesis: "Energy-aware background synchronisation in Android apps" (grade 1.7), written at Alpenblick Apps
- Relevant courses: Mobile Computing, Software Engineering, Databases, Human-Computer Interaction

Abitur 2022
Gymnasium Fürstenried, Munich

SKILLS

Mobile Kotlin, Android SDK, Jetpack Compose, Coroutines, Room, Retrofit, Material Design 3, Flutter, Dart
Backend/Tools Firebase (Crashlytics, Auth, Firestore), REST APIs, Git, GitHub, Android Studio, Gradle, JUnit, MockK
Other SQL basics, Java (from university courses), Figma (reading designs)

PROJECTS

mensa-muc 2023 – ongoing

- Open-source Flutter app showing the daily menus of the Munich student canteens; ~1.2k active users, 14 contributors
