Daniel Okafor

Full-Stack Developer (TypeScript) · Berlin · +49 152 09 73 41 86 · daniel.okafor@proton.me · github.com/dokafor · Work permit: EU Blue Card

EXPERIENCE

Full-Stack Developer · *Loopline Health GmbH, Berlin* Jun 2024 – present

- Build a telemedicine platform (patient web app, doctor dashboard, scheduling API) in a team of six; React + TypeScript on the front, Node.js/Express with Prisma and PostgreSQL on the back
- Designed and implemented the appointment booking service incl. slot locking with Redis; handled the DSGVO audit log requirements with the compliance officer
- End-to-end tests with Playwright, unit tests with Jest; CI/CD in GitHub Actions deploying Docker images to a managed host
- Took over on-call for the API for one week per month; wrote the runbooks the team still uses

Junior Software Developer · *Brightpath Studios UG, Berlin* Apr 2023 – May 2024

- Agency work on customer portals and internal tools: React front-ends with Tailwind CSS, Node.js REST APIs, PostgreSQL schemas and migrations
- Delivered a ticket-scanning web app for a festival (12k check-ins over one weekend, zero downtime)
- Set up Docker Compose dev environments so that new colleagues could start within an hour

Working Student Software Development · *Spreewerk Digital GmbH, Berlin* Mar 2022 – Mar 2023

- Bug fixing and small features in a React/Express codebase for a real-estate CRM; wrote the first Jest tests of the project
- Built an internal Slack bot in Node.js that posted deployment summaries

EDUCATION

B.Sc. Computer Science · *Technische Universität Berlin* Oct 2019 – Mar 2023

- Thesis: "Optimistic concurrency in collaborative web editors" (1.3); teaching assistant for Introduction to Programming (two semesters)

Secondary school · *Loyola Jesuit College, Abuja, Nigeria* 2012 – 2018

SKILLS

Languages TypeScript, JavaScript (ES2023), SQL, Python (scripts), Bash
Frontend React, React Router, TanStack Query, Tailwind CSS, Vite, HTML, CSS, accessibility basics
Backend Node.js, Express, Prisma, PostgreSQL, Redis, REST API design, OpenAPI, JWT auth
Testing Jest, Playwright, React Testing Library, Supertest
Ops Docker, Docker Compose, GitHub Actions, Linux basics, Sentry, Grafana (reading dashboards)

PROJECTS

shelfmate – open-source library-lending app for small associations (React, Node.js, PostgreSQL), 300+ stars 2023 – ongoing

Hackathon Berlin 2025 – 2nd place with a route planner for wheelchair users (team of four, 48 hours) 2025

LANGUAGES

English native
German B1 (taking a B2 course, evenings)
